

Children's records

Policy statement

We have record keeping systems in place that meet legal requirements; the means we use to store and share that information takes place within the framework of the General Data Protection Regulations (GDPR) (2018) and the Human Rights Act (1998).

This policy and procedure should be read alongside our Privacy Notice, Confidentiality and Client Access to Records Policy and our Information Sharing Policy.

Procedures

If a child attends another setting, we establish a regular two-way flow of appropriate information with parents and other providers. Where appropriate, we will incorporate comments from other providers, as well as parents and/or carers into the child's records.

We keep two kinds of records on children attending our setting:

Developmental records

- These include observations of children in the setting, photographs, video clips and samples of their work and summary developmental reports.
- These developmental records are held by 'Tapestry' a secure online learning journey system. Each member of staff has access to an iPad where they input observations based on a child's individual learning journey. Parents are issued login details for their child's online developmental record; which enables them to contribute observations and comments alongside those of practitioners. This is a shared system predominantly to enhance 'parents as partners.' Each child's development is tracked and then monitored by our practitioners.

Personal records

These may include the following (as applicable):

- Personal details – including the child's registration form and any consent forms.
- Contractual matters – including a copy of the signed parent contract, the child's days and times of attendance, a record of the child's fees, any fee reminders or records of disputes about fees.

- Child's development, health and well-being – including a summary only of the child's EYFS profile report, a record of discussions about everyday matters about the child's development health and well-being with the parent.
- Early Support – including any additional focussed intervention provided by our setting (e.g. support for behaviour, language or development that needs a SEN action plan) and records of any meetings held.
- Welfare and child protection concerns – including records of all welfare and protection concerns, and our resulting action, meetings and telephone conversations about the child, an Education, Health and Care Plan and any information regarding a Looked After Child.
- Correspondence and Reports – including a copy of the child's 2-Year-Old Progress Check (as applicable), all letters and emails to and from other agencies and any confidential reports from other agencies.
- These confidential records are stored in a lockable file or cabinet, which is always locked when not in use and which our Playgroup Supervisor keeps secure in an office or other suitably safe place.
- We read any correspondence in relation to a child, note any actions and file it immediately
- We ensure that access to children's files is restricted to those authorised to see them and make entries in them, this being our Playgroup Supervisor, deputy or designated person for child protection, the child's key person, or any other staff as authorised by our Playgroup Supervisor.
- Personal details and contractual matters as specified above will also be accessed by the individual appointed by the Playgroup Committee to be responsible for funding, invoicing and administration.
- We may be required to hand children's personal files to Ofsted as part of an inspection or investigation process; or to local authority staff conducting a S11 audit, as long as authorisation is seen. We ensure that children's personal files are not handed over to anyone else to look at.
- Parents have access, in accordance with our Privacy Notice, Confidentiality and Client Access to Records Policy, to the files and records of their own children, but do not have access to information about any other child.
- Our staff will not discuss personal information given by parents with other members of staff, except where it affects planning for the child's needs. Our staff induction programme includes an awareness of the importance of confidentiality in the role of the key person.
- We retain children's records for three years after they have left the setting; except records that relate to an accident or child protection matter, which are kept until a child reaches the age of 21 years or 24 years respectively. These are kept in a secure place.

Archiving children's files

- When a child leaves our setting, we remove all paper documents from the child's personal file and place them in a robust envelope, with the child's name and date of birth on the front and the date they left. We seal this and place it in an archive box, stored in a safe place (i.e. a locked cabinet) for three years. After three years it is destroyed.
- If data is kept electronically it is encrypted and stored as above.
- Where there were s.47 child protection investigations, we mark the envelope with a star and archive it for 25 years.
- We store financial information according to our finance procedures.

Other records

- We keep a daily record of the names of the children we are caring for, their hours of attendance and the names of their key person.
- Students on Early Years Alliance or other recognised qualifications and training, when they are observing in the setting, are advised of our Confidentiality and Client Access to Records Policy and are required to respect it.

Legal framework

- General Data Protection Regulations (GDPR) (2018)
- Human Rights Act (1998)

Further guidance

- Information sharing: Advice for practitioners providing safeguarding services to children, young people, parents and carers (2015)

This policy was adopted at a meeting of
